A Big Wheat Crop For 1899.

That's our prediction for Mason, Bracken and Robertson counties. We make no pretentions in the way of fortune telling; neither are we a prophet. We are simply gifted with a goodly amount of "horse sense." We know that there will be a good wheat crop next year, because the built of the wheat sown this fail will be sown with Empire Dies Drills, and they make no mistake. Empire Drills are positive and absolute. They do exactly what you tell them to do. The Empire Dies Drill is the only positive feed drill made. It will feed the same quantily of wheat, rye, oats or bariey with the same gene. Size of the grain cuts no figure with the Empire. You do not have to sow four or five acres before you know what you are doing as with other drills. The Empire has telescoping steel conductors which never break or choke up as do the old-fashioned rubber conductors. The Empire drag bars are fastened to the top of the boot, five inches higher than on other drills and trash will not choke and stop the Empire.

EMPIRE WHEAT DR

will drill corn successfully. Remember, the Empire is a positive feed drill, and the only one on the market. The grain is gently lifted into the conductors by a round, sancer-shaped part which is made to rotate by a square shaft. Only so much grain can be lifted and feel as this part will hold, and in order to so we large or small quantity of grain per acree you simply put a large or small coy wheel on this shaft, which makes the round, saucer-shaped lift revolve faster or slower. Each coy wheel is numbered and gnaranteed to sow an exact quantity of any grain per acree—wheat, ray, oats, barley. The Empire has tapering axies like a thimble-axieli wagon, and a peculiar wheel, a wheel that we will guarantee will not rub the bowes in the years as on other drills—up, not in twenty-drey years. Buy the best. Buy the Empire and take alvantage of 48 years experience. The Empire Disc Drill. Ask your grandfather about it. Ask any old citizen if he ever heard of an Empire Brill. I can show you an Empire Drill that is 31 years old and still rounting. The Empire or 48 years has had a National reputation—known and used the world over except Mason county. The Empire is not a cheap drill. It costs the agent a little more than other drills. Perhaps that is why our implement dealers have never sold the Empire Brill here. Empire Brills are being exhibited and sold in Mason county now. I have shown this drill to at these 50 framers in the last two weeks and every one is enthussable in this vonderful machine and convince yourself. It is a pleasure for us to exhibit it. Call and see us.

DIED SUDDENLY.

Brig. Gen. Joseph T. Haskell Stricken With Apoplexy at Columbus, O.

The Deceased Commanded the 17th In fantry at the Battle of El Caney and Was Wounded.

COLUMBUS, O., Sept. 17.—Brig., Gen., Joseph T. Haskell diedauddenly a this home at the Columbus post about 4:30 Friday afternoon. He was stricken with apoplexy, the excitement through which he had passed during the day being the immediate cause of the attack.

being the immediate cause of the attack.

Gen. Haskell commanded the 17th infantry at the battle of El Caney and was twice wounded in the left shoulder and knee. He came home about a month ago and was rapidly recovering, the wound in his shoulder, however, had paralyzed his left arm, which he carried in a sling. Friday morning the 17th regiment returned home and Gen. Haskell went to the depot in a carriage to welcome his gailant men. He rode at the head of the regiment through the city to the post and the cheers of the Immense crowds of people that lined the attrest were directed almost as much to him individually as to the regiment. At the reviewing stand the crowd surrounded the carriage and flowers were fairly showered into the flowers were fairly showered into the regiment.
